CAHSEE Math (350 or higher)

CAHSEE English (350 or higher)

Total of 230 credits

PLAN FOR THE FUTURE: All Central Valley High School students are expected to graduate and go on to some form of further education. Without post-high school academic or career education, students' career choices and earning power will be limited. To be prepared for this continued education, students are expected to take the most rigorous courses possible during all four years of high school.
